Summary

Computer Science graduate skilled in backend development, web technologies, and database design. Good in Python, Java, C++, and PHP with hands-on experience in frontend tools and UI/UX design using Figma. Strong problem-solving and teamwork skills with project experience in building e-learning and digital marketplace platforms.

Education

The Hashemite University

Bachelor of Computer Science and Applications (Expected Jan 2026)

GPA: 3.34/4.00 (Very Good)

Technical Skills

Languages: Python, Java, C++, PHP, JavaScript, SQL

Web: HTML5, CSS3, Bootstrap, React.js (learning)

Backend & Databases: Python, SQL

Tools: VS Code, Git/GitHub, Figma

Core Concepts: OOP, Algorithms, Problem Solving

Projects

Aklaat Beiti Website (Graduation Project) — [Website](#) **| HTML, CSS, JavaScript, Bootstrap, Figma, PHP**

- Built a digital platform to support home-based food makers by designing the full frontend.
- Created prototype in Figma and contributed backend functionality to the homepage.
- Delivered clean, modular code for maintainability and collaboration.

TeachX — [GitHub](#) **| PHP, HTML, CSS, JavaScript**

- Developed a platform to organize educational courses using PHP for backend logic.
- Implemented full frontend with a user-friendly interface.
- Enhanced course delivery with backend features.

Eye T (Prototype) — [Figma](#)

- Designed a prototype for an online eyewear store.
- Built consistent layouts and interactive flows focusing on usability.
- Applied UI/UX best practices to improve navigation and engagement.

Experience

Orange Jordan — *Full Stack Intern (PHP & Laravel)* *(*Oct 2025–Jan 2026*)*

- Learning UI/UX design using Figma, frontend development (HTML, CSS, JavaScript), database design with MySQL, and backend development using PHP and Laravel.
- Collaborating with peers on practical projects and applying agile teamwork principles.
- Enhancing problem-solving and web application deployment skills.

Leadership & Extracurricular

Etihad-IT — Academic Team Member (Jul 2023 – Present)
- Assist students in understanding difficult concepts.
- Support in developing learning strategies.
- Provide academic guidance for effective studying.

Courses & Workshops

UI/UX Workshop – Zinc (Oct 2024) — [Certificate Available](#)
